Artwork

As part of the complete \$11-million renovation, original works were installed throughout the public spaces of the St. Regis Hotel. In total, the collection in our art in the hotel comprises over twenty-two pieces from five different artists. The selection of work tends toward the abstract, springing from a variety of sources and serves to simultaneously integrate and compliment the spaces adding depth, colour, and atmosphere throughout the Hotel.

The five artists featured at the St. Regis are Canadian, American, and British with a range of cultural heritages and influences from native and Hispanic to Asian and Irish. Whether you take the time to examine and contemplate this art, or whether you enjoy it in passing, we believe that it enriches the environment for our guests' every stay.
